

**NACo Information Technology Committee Meeting
Agenda
July 14, 2007**

The Greater Richmond Convention Center
403 North Third Street
Richmond, VA 23219
Room: B15c

8:30 – 9:00 Introductions

The Honorable Tim Loewenstein, Supervisor, Buffalo County, Nebraska
and NACo Information Technology Committee Chair

*County Members: Please come prepared to give a brief intro of your
major initiatives and/or areas of concern from your county.*

*Premier Members: Please come prepared to briefly introduce your
company and describe your primary focus area within counties.*

9:00 – 9:30 Public Records and Identify Theft Concerns

The Honorable Helen Purcell, County Recorder, Maricopa County,
Arizona

*We've all read in the press where counties have come under pressure to
remove sensitive information such as Social Security numbers, bank
account numbers, and credit card numbers from public records. Helen
Purcell will provide an overview of the magnitude of this issue both from a
nationwide and a Maricopa County perspective.*

**9:30 – 9:45 National Association of County Information Technology Executives
(NACITE) Report**

Mr. Jon Fullinwider, Chief Information Officer, Los Angeles County,
California and NACITE President

*Jon Fullinwider will discuss 2008 NACo Technology Summit ideas
addressed at the NACITE Business Meeting.*

9:45 – 10:00 Break

10:00 – 10:15 Health IT Task Force Report

Dr. Alan Shark, Executive Director, Public Technology Institute (PTI)

*Alan Shark will provide an update on PTI's Health IT Task Force
initiative.*

10:15– 10:30 Scholarship for Service Program

Dr. Lance Hoffman, Distinguished Research Professor, The George Washington University

Dr. Costis Torgas, Council IT Advisor, Montgomery County, MD and Lead Research Scientist, The George Washington University

The National Science Foundation (NSF) has recently agreed to permit computer security and information assurance (CSIA) students in the Scholarship for Service (SFS) program to seek employment among all three tiers of government. This program has already placed hundreds of information security professionals in the federal government and is now being made available to state and local governments.

10:30 – 11:00 E-Democracy Discussion

The Honorable Randy Johnson, Hennepin County, Minnesota Board Chair; Hennepin Healthcare System, Inc. Board Member; and NACo GIS Committee Chair

Ms. Carolyn Purcell, Director, State and Local Internet Business Solutions Group, Cisco Systems

Citizen participation is central to democratic governance. However, as evidenced by declining voter turnout, decreased levels of civic participation, and widespread cynicism towards political institutions, there is a gap between elected representatives and the citizenry. Information and communications technologies (ICTs) have the potential to help make citizen participation a more dynamic element of the policy-making process. Can ICTs facilitate direct interactions between citizens and government through the integration of digital democratic applications?

Randy Johnson will address how an “electronic boardroom” could help Hennepin County e-democracy efforts and Carolyn Purcell will discuss innovative technologies that help bring e-democracy closer to reality.

11:00 - Noon Joint Session of the Information Technology Committee and the Telecommunications & Technology Steering Committee

Broadband discussion facilitated by Dr. Alan Shark, Executive Director, Public Technology Institute (PTI)

Move to Room E11a to join the NACo Telecommunications & Technology Steering Committee already in session
