A brass sextant and telescope are positioned on a nautical chart. The sextant is on the left, and the telescope is in the center. The chart shows various geographical features and labels such as 'Le Bourg', 'Martello Tower No 1', 'La Rocque Pt', 'L' Etachon', and 'Little Seymour'. The text 'Strategic System Changers Are Needed to Help Navigate Health Reform' is overlaid on the right side of the image.

Strategic System Changers Are Needed to Help Navigate Health Reform

Adaptive Challenges

Influence decisions

Educate others

*Strategically plan
under uncertainty*

*Stay abreast of new
information that
emerges*

*Create new
partnerships*

*Build capacity: workforce,
information technology,
and care coordination*

ATLANTA REGIONAL COLLABORATIVE FOR HEALTH IMPROVEMENT SUMMARIZED TIMELINE

Multi-disciplinary Steering Committee formed and begins meeting to discuss the need for a more collaborative approach to addressing critical and systemic health needs in Atlanta region.

Decision is made to focus on Fulton and DeKalb counties initially, with a view to expanding the collaborative to incorporate other counties over time.

Steering Committee studies community benefit requirement of ACA and begins talks with Fulton and DeKalb hospitals to consider the potential of a single collaborative health assessment.

Steering Committee designs an engagement process and a series of stakeholder meetings that will focus on understanding health improvement opportunities in Metro Atlanta, and promote collective action.

July 2012: first stakeholder meeting – 40 health providers and community partners discuss the potential of a collaborative approach and reviewed the Re-Think Health simulation model to assist in the development of community health priorities, the allocation of limited resources and the methods for capturing savings.

September 2012: second stakeholder meeting—52 health providers and community partners review quantitative analysis of health status and health indicators in Fulton and DeKalb.

October 11, 2012: third stakeholder meeting—56 health providers and community partners review qualitative data on both the health of residents in Fulton and DeKalb and on successful collaborations in metro Atlanta.

November 14, 2012: fourth stakeholder meeting, providers and partners work together to develop consensus priorities around which a collective implementation and investment strategy can be developed.

ARCHI partners work together to develop collective implementation and investment strategy

Preferred Scenario

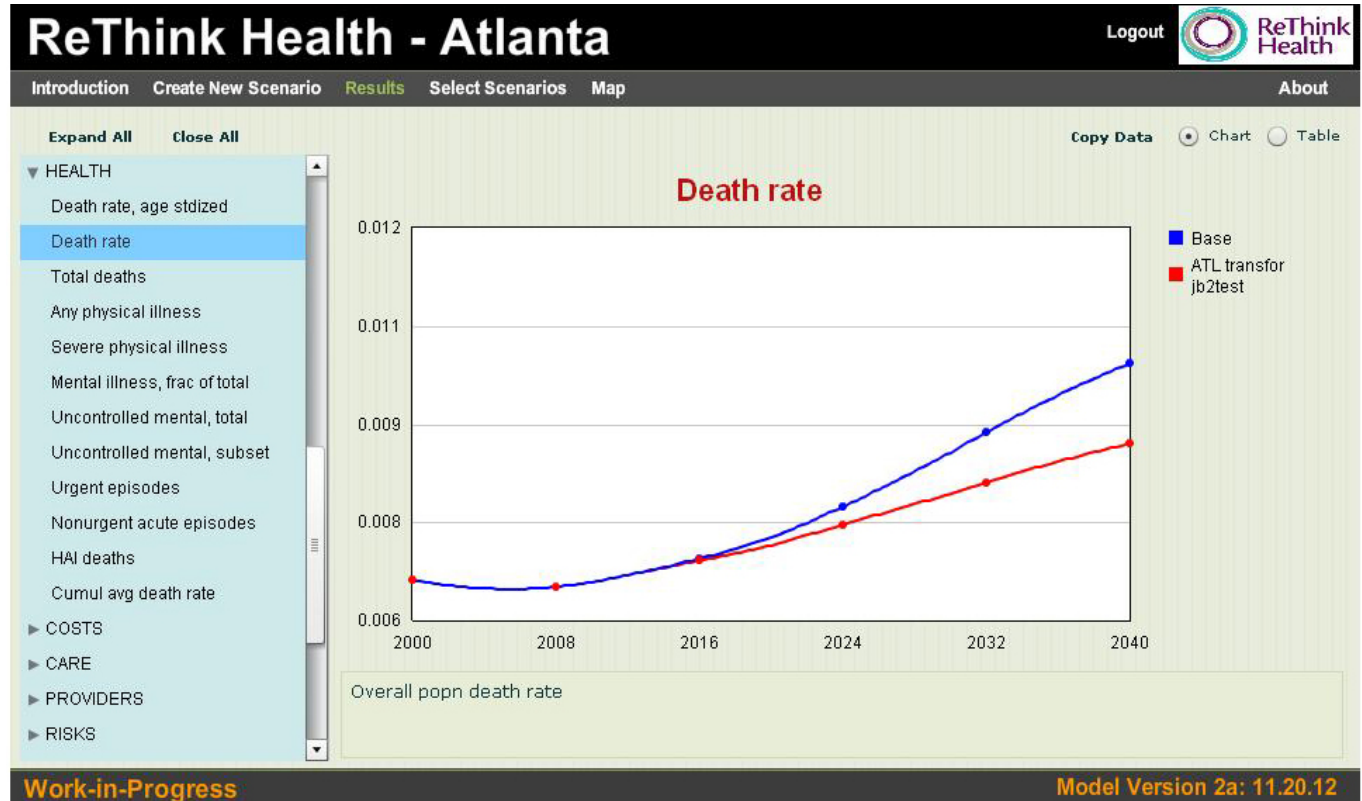

- Healthier Behaviors
- Family Pathways
- Coordinated Care
- Global Payment
- Capture and Reinvest
- Expand Insurance
