

2026 NACo Tech Xchange Subscription

County Tech Xchange

Connecting county IT leaders to solve tomorrow's technology challenges. County governments are under increasing pressure to modernize services, strengthen cybersecurity, and manage complex technology systems with limited staff and resources.

The NACo County Tech Xchange is the largest national network where county IT leaders and elected and appointed stakeholders collaborate, share solutions and resources, and leverage collective expertise to help counties move faster and smarter together.

Who Should Join?

County CIOs and IT Directors, County Commissioners and Administrators, Technology Managers and Infrastructure Leaders, Senior staff responsible for cybersecurity, data, and digital services.

For more information,
visit the County Tech Xchange website

NACo Tech Xchange Basic

Stay connected with county IT peers and receive curated resources:

- Peer-to-peer problem solving through the county IT discussion forum
