# WELCOME

**Dear NACo Rural Action Caucus Members,**

**Ouray County is thrilled to be hosting this year's National Association of Counties (NACo) Rural Action Caucus (RAC) Symposium! Welcome!**

NACo's Rural Action Caucus is a key component of NACo. RAC is the voice for America's rural counties before Congress and the Administration. Nearly two-thirds of the nation's 3,069 counties are designated as rural, with a combined population of 60 million. Since 1997, NACo's Rural Action Caucus has served as the voice for critical federal, state and local issues.

County elected officials from these rural areas are dedicated to solving many issues impacting rural life and development. These include infrastructure development, broadband deployment, development of new rural clinics and hospitals, road and bridge construction and maintenance, business development opportunities, and many more county responsibilities.

This year's symposium will examine trends and find creative collaborative solutions for key issues including substance abuse, drug trafficking, caring for aging rural community members, and rural childhood poverty. Mobile field trips will feature public lands topics including forest health, outdoor recreation and tourism, and PILT; rural infrastructure challenges; and scalable place-based rural economic development initiatives.

We will be defining our key federal legislative, policy and program issues for 2015 and identifying effective and efficient strategies to move mountains and accomplish our priorities. This means looking at how and when RAC engages its members and federal legislators and partners, so that we are most effective.

Counties own and maintain critical infrastructure that transport people, goods, and services to schools, jobs, markets and health care...we are critical partners with federal and state governments. **This symposium is made possible by the contributions of our generous sponsors who continue to support our efforts by partnering with us to show that Rural Counties Matter.**

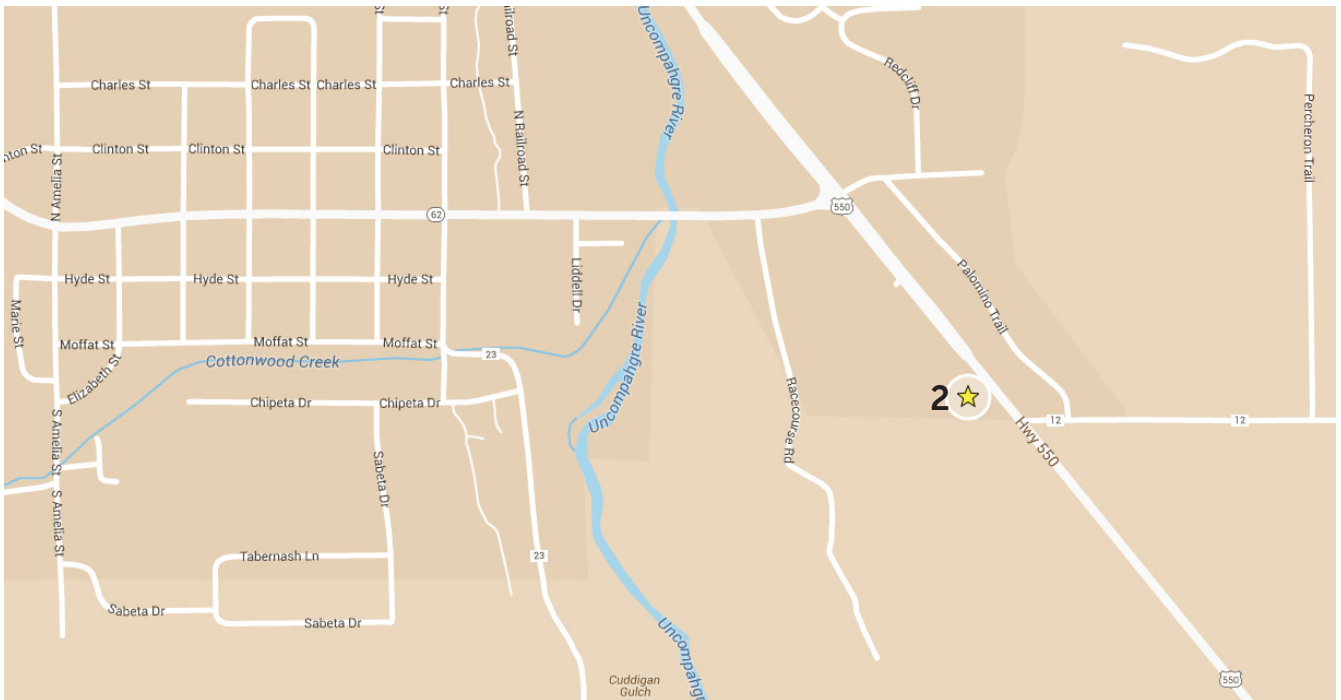

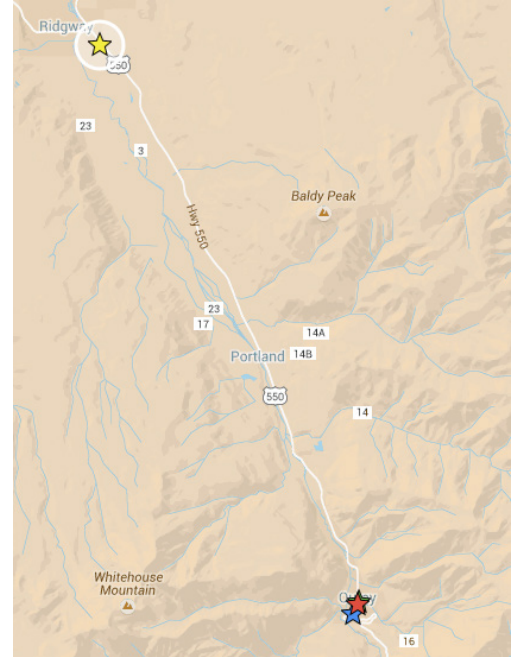

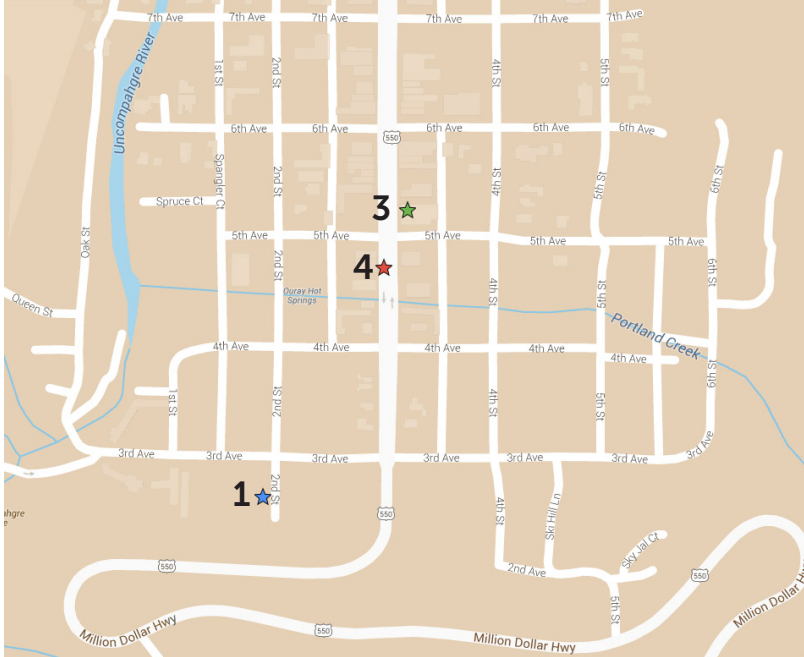

**Thank you for participating in this year's Fall RAC Symposium. Welcome to RAC and welcome to Ouray County, "Jeep Capitol of the World" and "Gateway to the San Juans."**

Warmest Regards,

Lynn Padgett  
Chair, Rural Action Caucus  
National Association of Counties

## ATTIRE

Since the conference is in a "frontier rural" location, attire for Friday's session is "Mountain Business" which can be best described as business casual. A suit will be completely out of place in Ouray County. Many streets are unpaved, so comfortable walking shoes with sensible tread, such as one might buy at an outdoor shoe store, and that you don't mind dust or mud on, are recommended. High heels will be unsafe in most of Ouray County. In the mountains temperatures can change rapidly, so comfortable layers are recommended. Clean jeans and a collared shirt with a sweater, vest, or fleece pullover will work well.

Be prepared for the possibility of colder weather and snow. October can have temperatures in the 70s (which will feel like the 80s) or temperatures in the 30s, sometimes just hours apart. Bring hats, gloves, and a waterproof shell. A warm under layer and boots or hiking shoes for the mobile field trips is also recommended.

## ALTITUDE

Locations in Ridgway and Ouray are at 6,700 to 8,000 feet in elevation. The preconference field trips will take you up to 12,000 feet elevation. It takes more energy to walk and exercise at altitude. It is recommended if you are not acclimated to higher altitudes that you:

- Hydrate – drink lots of water, even before you get here and while you are here.
- Avoid overexertion – go slow.
- Recognize the impacts that altitude can have on alcohol consumption.
- Move to a lower altitude if you begin to feel ill.

### **Preparing the Next Generation for Success: The County Role in Early Childhood Development and Rural Poverty**

During early childhood, the effects of both positive and negative factors on healthy development are amplified. Poverty plays a significant role in childhood development and can produce detrimental economic and social effects across a child's lifespan. The White House Rural Council recently announced renewed efforts to address childhood poverty in rural areas through multi-generational service delivery models. As the national debate on this issue moves forward, this panel will discuss counties' role in early childhood and their needs in carrying out this role effectively in rural communities.
