- **Hon. Sally Heyman**, Commissioner, Miami-Dade County, Fla.

3:35 PM: Urban Counties and Strategies for the 2020 U.S. Census

With nearly a trillion dollars in federal funding apportioned each year based on Census results, an accurate, complete count is critical to urban counties and their residents. To ensure accurate apportionment of federal funds, county governments should have strategies for reaching traditionally hard-to-count populations, especially as Census forms move online. During this discussion, guest presenters will offer their recommendations for achieving a complete count, and LUCC members will share insights from their local work on this key issue.

- **Hon. Stanley Moore**, Commissioner, Cook County, Ill. and Co-Chair, NACo Census Working Group
- **Ms. Trish Brennan-Gac**, Director, State and Local Partnerships, American Institutes for Research

4:05 PM: Federal-Local Partnerships on Election Administration and Security

As the elections of 2020 rapidly approach, urban county leaders are faced with myriad, interrelated challenges in local administration of elections. These challenges range from hardware upgrades to international sabotage, and for county governments, the margin for error is minimal. During this discussion, partners from the U.S. Department of Homeland Security's Cybersecurity and Infrastructure Security Agency (CISA) will join attendees to discuss alignment of federal and local efforts towards the common goal of safeguarding America's elections.

- **Mr. Noah Praetz**, Election Security Consultant, Cybersecurity and Infrastructure Security Agency (CISA), U.S. Department of Homeland Security

4:15 PM: Planning Discussion: Large Urban County Caucus Programming in 2020

During this conversation, LUCC members will discuss future programming for the caucus, including meetings scheduled at NACo's 2020 Legislative and Annual conferences, the 2020 LUCC Symposium and potential county peer exchanges focused on key urban issues.
