10:10 AM: Applying Machine Learning to Understand Cyber Risk
SecurityScorecard enables counties of all sizes to self-monitor their risk and allows for the identification of risk, allowing counties to make faster and smarter decisions. With limited cyber capacity, how do counties prioritize risk and justify county cyber spend through KPIs and board reporting. Hear from Lehigh County PA as to how they use tools like this to address and improve their cyber security posture.
- **Kate Ledesma, Senior Director for Government Affairs, Security Scorecard**
- **Bob Kennedy, CIO, Lehigh County, PA**

10:40 AM: TikTok, Social Media and the Impact for County Governments
In the wake of recent U.S. government concern and legislation regarding TikTok, this discussion will cover the types of data captured by TikTok and its analysis, as well as how that data could be exploited. Presenters will explore other types of social media and widely used applications that collect data, and the potential for nefarious use. Finally, best-practices will be offered to reduce the risks posed by these increasingly popular services.
