From Idea to Implementation: The Action Plan

The task: Identify and prioritize the top three priorities for your jurisdiction.

- (1) Determine the top utilizers of service in Dakota County.
- (2) Quantify the cost to the system to respond to top utilizers.
- (3) Implement data sharing agreements in order to collect and use data on on-going basis that will inform our Integrated Mentoring pilot program.

Takeaway #1: Value Proposition

Framing up the ask and generating buy in. *What's in it for me?*

- ❧ Ensuring we are mindful of the multi-faceted stakeholders.
- ❧ Examples of questions:
 1. What challenges do intensive behaviors present to emergency services?
 2. What challenges do intensive behaviors present to the wider community?
 3. What challenges do intensive behaviors present to the mental health providers/social services?
 4. What challenges do intensive behaviors present to the individual?

Takeaway #2: Start Small

The Intervention!
