Revolutionizing community workflows to address public need.

Provide secure integrated information sharing in every community.

3 Unique Aspects of Julota

Although we are built on a case management framework, what we really do is...

- **Secure inter-agency collaboration and data sharing**
 - Integration/interface with existing data systems
 - Compliances
 - HIPAA
 - 42CFR Part 2
 - CJIS
- **Automated and compliant case management**
 - Permissions
 - Consents
- **Workflows configured specifically to client programs**
