Safe and Secure Counties

• Protecting Public Safety
• Preserving Public Health and Well-Being
• Promoting Local Economies
Cybersecurity with Safe and Secure Counties

• Counties are vital to keeping America’s communities safe and secure.

• Counties should be concerned with recent data breaches that have affected the federal government, the private sector and many individuals.

• CySAFE (Cyber Security Assessment for Everyone)

• Developed in Oakland County, Michigan
• Free IT security tool that other counties can use to assess, understand and prioritize their IT security needs
• Helps governments assess their needs and determine priorities, while providing additional information and resources for moving forward

National Cyber Security Awareness Month

STOP | THINK | CONNECT™

DATA PRIVACY DAY
Cybersecurity is a shared responsibility
Often we make cybersecurity scary
Or tell people security is about locking it down
Or to put up a wall
What if we talked about Security as enabling. A safe and trusted Internet means MORE...
culture, n. 1. tending, raising
2. [Civilizing folklore, folk value systems]
STOP. THINK. CONNECT. The national campaign for cybersecurity education and awareness.
