- **Director, Government Affairs**

Agenda

- AUVSI Intro
- Events
- Advocacy
- Education
- Q&A

About AUVSI

Association for Unmanned
Vehicle Systems
International

AUVSI's mission is to
advance the unmanned
systems and robotics
community through
***advocacy, education and
market growth.***

In its 50th year, AUVSI is the
***world's largest association
for unmanned systems
and robotics***

- Air, ground and maritime
- Commercial, civil and defense

More than ***7,500 members***,
including ***more than 400
corporate members*** from
more than ***60 countries***

Diverse membership from
industry, to government to
academia

***More than 30 chapters
across the U.S. and the
Globe***

GIS Gaps in 911, Robert Horne, Kate Elkins, Darlene Pardiny

*GIS Domain Lead,
Mission Critical Partners*

*GIS Manager for Flagler
County, Fla.*

*Acting Coordinator, National 911
Program Acting Coordinator,
National 911 Program, Deputy Team
Lead, COVID-10 EMS / Prehospital Team*

National 911 Program GIS Standardization Project Briefing

National 911 Program

Kate Elkins, Acting Coordinator

The National 911 Program

1. Convenes stakeholders to make decisions and take action
2. Creates and shares resources to help 911 systems and to educate others about NG911
3. Administers grant for updating state/local 911 systems (with the NTIA)

Why is this initiative Important?

NG911 relies upon highly accurate, robust GIS data that is maintained to GIS standards and freely shared locally, regionally and nationally

Project Goal

Develop a 911 GIS data sharing strategic plan that identifies the challenges discovered throughout this project and details the strategies for fully executing the National 911 Program's vision of truly interoperable, nationwide GIS data for 911

MissionCriticalPartners

Because the Mission Matters

Robert Horne, ENP

Project Objectives

Assess

the current status of GIS technologies and identify gaps in capabilities, funding, and staffing

Identify

impediments to data sharing regionally and nationally within the 911 stakeholder community. Report on the current status of the data sharing paradigm and identify capabilities gaps that threaten the success of the NG911 migration

Define

opportunities for the N911P to facilitate sharing best practices and offer guidance on building the right partnerships to solve specific problems.

Develop

strategies that will facilitate the execution of a plan to achieve truly interoperable GIS data-sharing nationwide.

Emerging Themes

GIS Data Supply Chain

- Maintain Local Autonomy
- Nationwide Integrated Data

Staffing Shortages / Rural vs Urban

- Highly Specialized Staff
- Remote Work
- Resource Sharing

Funding & Alternate Funding

- Legislate 911 Funds for NG911
- Strategic Partnerships

Emerging Project Requests

- NG911 Blueprint for GIS
- Expand GIS Section of Interstate Playbook
- Document Templates
- Formal Support
 - Conferences
 - Public/Private Partnerships
 - Strategic Partnerships
 - Better Standards

Questions

Project Timeline

911 GIS Technologies (C.5.3) Dec 6 - Feb 25

Required Entities (C.5.4) Jan 31 - May 27

Partner Agencies/Organizations (C.5.5) Mar 1 - Jul 28

Scientific Research Metrics (C.5.6) Jan 3 - Sep 28

911 GIS Data Sharing Strategic Plan (C.5.7) Jun 1 - Sep 28

Final Report (C.5.8) Jul 18 - Oct 28
